

Following the decision by the City of Columbus to lift the mask mandate, we wanted to share the following policy change for Arena District multi-tenant buildings effective immediately:

Mask Wearing

- Aligned with Nationwide's policy, masking in building common areas is optional for personnel whose vaccinations are up to date per the [latest CDC guidelines](#). Personnel whose vaccinations are not up to date, including booster doses, should continue to wear a mask in common areas. This applies to office visitors, vendors, maintenance personnel as well as outside contractors.
- Businesses should continue to follow their own policies and practices in regard to masks and distancing when inside suites.
